As a member of The Cold Climate Housing Research Center you help build a sustainable future. From walls and roofs to electricity and heat, CCHRC’s mission to promote and advance the best practices in northern shelter affects our everyday lives.

Donations to CCHRC directly support our efforts to define and respond to public and industry needs and priorities, pursue new projects and develop our reputation as the center for industry-based, applied research in cold climate building techniques and practices such as:

- Construction methods to improve energy efficiency and whole building performance
- Product development and product testing
- Cost effectiveness of building methods, materials, and codes and standards
- Research into healthy home environments
- Demonstration and testing of alternative energy sources for northern latitudes
- Public education and outreach
